

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. - 55. (cancelled)

56. (new) A cosmetic or dermatological preparation comprising an active ingredient combination of at least one antioxidant or a derivative thereof and 8-hexadecene-1,16-dicarboxylic acid.

57. (new) The preparation of claim 56, wherein the at least one antioxidant is selected from imidazoles, peptides, carotenoids, α -lipoic acid, lipoamide, aurothioglucose, propylthiouracil, metal chelators, humic acid, bile acid, bile extracts, bilirubin, biliverdin, unsaturated fatty acids, folic acid, flavenoids, tocopherols, rutinic acid, ferulic acid, butylhydroxytoluene, butylhydroxyanisole, nordihydroguaiaretic acid, nordihydroguaiaretic acid, trihydroxybutyrophene, kojic acid, uric acid, mannose, zinc and salts thereof, selenium compounds and enzymatic antioxidants.

58. (new) The preparation of claim 56, wherein the at least one antioxidant comprises at least one of folic acid and a ubiquinone.

59. (new) The preparation of claim 58, wherein the at least one antioxidant comprises at least folic acid.

P30879.A10

60. (new) The preparation of claim 59, wherein the at least one antioxidant comprises at least folic acid and a ubiquinone.

61. (new) The preparation of claim 60, wherein the ubiquinone comprises coenzyme Q10.

62. (new) The preparation of claim 59, wherein the at least one antioxidant further comprises tocopherol or a derivative thereof.

63. (new) The preparation of claim 62, wherein the at least one antioxidant further comprises α -tocopherol.

64. (new) The preparation of claim 59, wherein the at least one antioxidant further comprises vitamin C or a derivative thereof.

65. (new) The preparation of claim 64, wherein the at least one antioxidant further comprises at least one of vitamin C, ascorbyl palmitate, magnesium ascorbyl phosphate, and ascorbyl acetate.

66. (new) The preparation of claim 59, wherein the at least one antioxidant further comprises α -glucosylrutin.

67. (new) The preparation of claim 59, wherein the at least one antioxidant further comprises at

P30879.A10

least one of coenzyme Q10, tocopherol or a derivative thereof, vitamin C or a derivative thereof, and α -glucosylrutin.

68. (new) The preparation of claim 59, wherein the at least one antioxidant further comprises at least two of coenzyme Q10, tocopherol or a derivative thereof, vitamin C or a derivative thereof, and α -glucosylrutin.

69. (new) The preparation of claim 59, wherein the at least one antioxidant further comprises at least one of urocanic acid, phytoene, lipoic acid, lipoamide, ferritin, desferal, bilirubin, biliverdin, a melanin, ubiquinol, uric acid, catalase and superoxide dismutase.

70. (new) The preparation of claim 59, wherein the at least one antioxidant further comprises at least one of urocanic acid, lipoic acid, lipoamide, melanins, uric acid and catalase.

71. (new) The preparation of claim 56, wherein the at least one antioxidant is present in a concentration of from 0.001% to 30% by weight, based on a total weight of the preparation, and does not include vitamin E or a derivative thereof.

72. (new) The preparation of claim 56, wherein the at least one antioxidant is present in a concentration of from 0.05% to 20% by weight, based on a total weight of the preparation, and does not include vitamin E or derivatives thereof.

P30879.A10

73. (new) The preparation of claim 56, wherein the at least one antioxidant is present in a concentration of from 0.1% to 10% by weight, based on a total weight of the preparation, and does not include vitamin E or derivatives thereof.

74. (new) The preparation of claim 56, wherein the at least one antioxidant is present in a concentration of from 0.001% to 10% by weight, based on a total weight of the preparation, and includes vitamin E or a derivatives thereof.

75. (new) The preparation of claim 56, wherein the at least one antioxidant is present in a concentration of from 0.05% to 20% by weight, based on a total weight of the preparation, and includes vitamin E or a derivatives thereof.

76. (new) The preparation of claim 58, wherein the at least one antioxidant is present in a concentration of from 0.1% to 10% by weight, based on a total weight of the preparation, and does not include vitamin E or derivatives thereof.

77. (new) The preparation of claim 56, wherein the 8-hexadecene-1,16-dicarboxylic acid is present in a concentration of from 0.001% to 10% by weight, based on a total weight of the preparation.

78. (new) The preparation of claim 56, wherein the 8-hexadecene-1,16-dicarboxylic acid is

P30879.A10

present in a concentration of from 0.005% to 8% by weight, based on a total weight of the preparation.

79. (new) The preparation of claim 56, wherein the 8-hexadecene-1,16-dicarboxylic acid is present in a concentration of from 0.05% to 5% by weight, based on a total weight of the preparation.

80. (new) The preparation of claim 59, wherein the 8-hexadecene-1,16-dicarboxylic acid is present in a concentration of from 0.001% to 10% by weight, based on a total weight of the preparation.

81. (new) The preparation of claim 59, wherein the 8-hexadecene-1,16-dicarboxylic acid is present in a concentration of from 0.005% to 8% by weight, based on a total weight of the preparation.

82. (new) The preparation of claim 59, wherein the 8-hexadecene-1,16-dicarboxylic acid is present in a concentration of from 0.05% to 5% by weight, based on a total weight of the preparation.

83. (new) The preparation of claim 60, wherein the 8-hexadecene-1,16-dicarboxylic acid is present in a concentration of from 0.001% to 10% by weight, based on a total weight of the

P30879.A10

preparation.

84. (new) The preparation of claim 60, wherein the 8-hexadecene-1,16-dicarboxylic acid is present in a concentration of from 0.005% to 8% by weight, based on a total weight of the preparation.

85. (new) The preparation of claim 60, wherein the 8-hexadecene-1,16-dicarboxylic acid is present in a concentration of from 0.05% to 5% by weight, based on a total weight of the preparation.

86. (new) The preparation of claim 61, wherein the coenzyme Q10 is present in a concentration of from 0.000001% to 5% by weight, based on a total weight of the preparation.

87. (new) The preparation of claim 61, wherein the coenzyme Q10 is present in a concentration of from 0.01% to 1% by weight, based on a total weight of the preparation.

88. (new) The preparation of claim 87, wherein the 8-hexadecene-1,16-dicarboxylic acid is present in a concentration of from 0.001% to 10% by weight, based on a total weight of the preparation.

89. (new) The preparation of claim 87, wherein the 8-hexadecene-1,16-dicarboxylic acid is

P30879.A10

present in a concentration of from 0.005% to 8% by weight, based on a total weight of the preparation.

90. (new) The preparation of claim 87, wherein the 8-hexadecene-1,16-dicarboxylic acid is present in a concentration of from 0.05% to 5% by weight, based on a total weight of the preparation.

91. (new) The preparation of claim 59, wherein the at least one antioxidant further comprises tocopherol or a derivative thereof.

92. (new) The preparation of claim 91, wherein the at least one antioxidant further comprises α -tocopherol.

93. (new) The preparation of claim 59, wherein the at least one antioxidant further comprises vitamin C or a derivative thereof.

94. (new) The preparation of claim 93, wherein the at least one antioxidant further comprises at least one of vitamin C, ascorbyl palmitate, magnesium ascorbyl phosphate, and ascorbyl acetate.

95. (new) The preparation of claim 59, wherein the at least one antioxidant further comprises α -glucosylrutin.

P30879.A10

96. (new) The preparation of claim 56, wherein the preparation further comprises at least one UV filter substance.

97. (new) The preparation of claim 96, wherein the preparation is present as a cosmetic or dermatological emulsion which comprises an aqueous phase and at least one UV filter substance that is liquid at room temperature as further phase.

98. (new) The preparation of claim 58, wherein the preparation further comprises at least one UV filter substance.

99. (new) The preparation of claim 59, wherein the preparation further comprises at least one UV filter substance.

100. (new) The preparation of claim 60, wherein the preparation further comprises at least one UV filter substance.

101. (new) The preparation of claim 62, wherein the preparation further comprises at least one UV filter substance.

102. (new) The preparation of claim 64, wherein the preparation further comprises at least one UV filter substance.

P30879.A10

103. (new) The preparation of claim 66, wherein the preparation further comprises at least one UV filter substance.

104. (new) The preparation of claim 56, wherein the preparation is present as a PIT emulsion.

105. (new) The preparation of claim 56, wherein the preparation is present as an O/W cream.

106. (new) The preparation of claim 56, wherein the preparation is present as at least one of a W/O emulsion and a W/O cream.

107. (new) The preparation of claim 56, wherein the preparation is present as a hydrodispersion.

108. (new) The preparation of claim 56, wherein the preparation is present as a gel cream.

109. (new) The preparation of claim 56, wherein the preparation is present as a W/O/W cream.

110. (new) The preparation of claim 56, wherein the preparation is present as at least one of a hair shampoo and a hair conditioner.
